

SGN Redaction Statement

To facilitate stakeholder engagement, we have made our Business Plan available on our website without any redactions to ensure full transparency. We have also published appendices to the plan, Engineering Justification Papers (EJPs), business plan data templates and some supporting information, including third party reports.

Certain information contained in the supporting documents have been redacted for the following reasons;

1. Grounds of Commercial Confidentiality: We have redacted information that is concerned with commercial negotiations between SGN and our suppliers. This will broadly include details of the suppliers, pricing, any commercially sensitive terms and terms that have yet to be agreed.
2. Grounds of Security: Our sites contain critically important infrastructure and could be subject to interference from third parties which could result in disruption and potentially loss of life. We have therefore redacted material to reduce any risk of security breaches (either physical or cyber). This includes information regarding the location of essential network infrastructure, sensitive information relating to our security and cyber security.
3. Grounds of Safety: On rare occasions information may be redacted because of a link between the data and a potential consumer harm for safety reasons.

Where we have undertaken a redaction, we have set out the reasons for each redaction based on the above grounds within the tables below.

We have not published the cost benefit analysis (CBAs) and some supporting information including third party reports as the information is summarised within the plan and the appendices. These documents are available on request by contacting the price control team at GD2@sgn.co.uk.

We maintain the right to withhold information set out in the CBAs and supporting information, on the grounds set out above.

We may require a confidentiality agreement to be put in place prior to sharing any further confidential information or documents.

We are not able to share reports by third parties without the permission of those third parties. We can pass on requests for information, but any decision resides with the third parties.

Table 1: Appendices (All 28 documents published)

Appendix	Redacted (Y/N)	Redactions	Redaction details
000 - SGN - Glossary	No	N/A	Published in full
001 - SGN - GD1 Experience	No	N/A	Published in full
002 - SGN - Property	Yes	Pg28	Commercial confidentiality – Third party cost information
003 - SGN - EAP	No	N/A	Published in full
004 - SGN - Financeability	Yes	Page 16 Page 40 - 51	Commercial confidentiality - Figures C4 (p16) has been redacted from section Cii (Notional Credit Rating) as we have not got a license agreement in place directly with the data provider for the graph. Commercial confidentiality - The detail within this appendix outlines various risk management and financing transactions that we may seek to undertake to support credit metrics in GD2, flagging publicly our intention to undertake these transactions (and potential reliance on them to support credit rating levels) could impact our ability to secure the best available commercial terms
004i - SGN - Financeability - Alternative cost of capital assumptions	Yes	Page 13, 20, 21, 29	Commercial confidentiality - Figures B5&B6 (p13), B7 (p20) and B8 (p21) have been redacted from section Bi (Cost of Debt) because we have not got license agreements in place directly with the data providers for the graphs, and thus their data can't be published. Figure B10 (p29) has been redacted from section Biii (65% Notional Gearing Assumption) for the same reason.
